An overall grade of “Passed with Distinction” will only be awarded if all three members of the examination committee agree that the student has met their criteria for passing with distinction. If a committee deems a student to have passed exams with distinction, the committee chair will notify the Director of Graduate Studies (DGS) and the DGS will write a letter to the student in recognition of the award of distinction. No matter the decision, a copy of this signed form must be turned in to the Graduate Secretary by the committee chair.

In addition to this form, the committee chair must fill out and sign the Results of Doctoral Preliminary Examinations form for the Graduate School. That form is available online here: <http://grs.uncg.edu/forms/DoctoralCompsResults.pdf>

Under the Comments section of the Graduate School form the committee chair should inform the Graduate School that the student passed exams with distinction, if applicable.

All completed forms should be returned to:
