

PASSPORTS OF STUDY

NOTE: Our programs become an integrated part of a student's path to graduation, rather than an "extra" tacked on.

GEC COURSES

Students may receive General Education Core category and marker credit for courses taken in overseas programs offered by the International Programs Center. These courses can be approved by the Registrar's Office before you go abroad.

EARN CREDIT TOWARDS YOUR LANGUAGE REQUIREMENT

The College of Arts and Sciences Additional Requirements (CARS) requires students to demonstrate intermediate-level proficiency in a foreign language. Study abroad and begin your exploration of a foreign language or finish up your requirement in another country. It should be noted there are many programs in non-English English speaking countries that do not require knowledge of a foreign language.

TAKE HISTORY COURSES

Students who are History majors and wish to study abroad can easily do so by working with the International Programs Center and the History Department's Director of Undergraduate Studies. Courses taken abroad may satisfy GEC requirements or 300+ electives, or may transfer in as requirements for the History major at the 200- or 300-level. While it may be ideal to study abroad in the sophomore or junior year, well-organized seniors have also managed it. The senior capstone course, HIS 511, must be taken at UNCG either before or after the study abroad experience.
