Office hours: Wednesdays 5:00pm–6:30pm; 9:30pm–11:00pm

Because I live and work in Raleigh, I strongly advise you to make an appointment for all meetings. You can reach me via email (please allow 24 hours response time) or telephone. For more in-depth phone conversations, please make an appointment ahead of time so that I can give you my undivided attention.

Credits: 3 hours

Prerequisites: Admission to a graduate program in History or Interior Architecture or written permission of instructor.

Course Description

This course will explore the legal, ethical, and practical issues associated with the development, management, and care of museum collections. You will investigate and analyze contemporary issues and debates within the field of history curatorship and learn what it means to be physically and intellectually responsible for museum collections. Through readings, discussions, expert presentations, site visits, a daylong cataloging workshop, and a semester-long real-world collecting project, you will learn about best practices in curatorship and collections management.

Student Learning Outcomes

Through a diverse range of experiences, you will gain a richer understanding of the role of artifact collections in public history institutions. You will explore how to best develop, care for, and use museum collections to benefit the publics you serve. Upon completion of this course, you will be equipped with the basic skills necessary to curate and manage museum collections, including:

1. **Applying** best practices in collections management
2. **Cataloging** objects effectively in the collections management software PastPerfect 5.0 and Re:Discovery Proficio
3. **Analyzing** objects as primary sources
4. **Integrating** multiple sources and perspectives to study and interpret objects holistically
5. **Engaging** with debates and issues central to contemporary history curatorship
6. **Evaluating** museum practices, policies, and planning documents
7. **Collaborating** productively with classmates, donors, and experts to accomplish shared goals
8. **Writing** clearly and accessibly to the benefit of peers and the wider public

9. **Creating** collections documentation that will benefit museums, donors, and the public

Teaching Methods

As a practicing public historian, I believe strongly in learning by doing. You will be responsible for hands-on exercises in class as well as independent and group work requiring the development of strong problem-solving skills. Often there are no easy or even “right” answers to curatorial quandaries. Rather, knowing where to turn for information and understanding how to develop well-reasoned strategies are key. In completing out-of-class assignments, including processing two distinct collections over the course of the semester, you will apply these skills as well as the practices and theories covered in reading assignments and class discussion to managing actual collections.

To position yourself for success, completing assigned readings, contributing thoughtful advance discussion questions, and preparing adequately for presentations are essential. During class time, you will gain knowledge from group discussions, peer presentations, brief lectures, site tours, hands-on activities, and expert visits.

The semester will culminate in intensive daylong cataloging workshops at the North Carolina Museum of History. Additionally, an acquisitions committee meeting during the final class will allow you to present and advocate for acquisition (or decline) of the two collections you have documented, researched, and processed through the semester into our “547 Museum.”

Assignments and Evaluation

Students will be evaluated on:

1. Class Participation 30%

(20 %) Weekly Assignments

- Completing assigned readings and participating actively in class discussions are crucial to achieving success in this graduate seminar. Students will engage in hands-on object analyses in class, make periodic presentations both individually and in teams, and serve as informed members of the class acquisitions committee during our last meeting. Representing the class professionally to outside experts and artifact donors is also of crucial importance. (learning outcomes 1, 3, 4, 5, 6, 7) (10%)
- Students will submit one readings-based discussion question each week by **Wednesday at 8:00 a.m.** on Canvas. Questions should be analytical in nature and should pertain to overarching themes and debates rather than individual details. For example, “How do traditional systems of classifying historic objects both facilitate and limit our ability to interpret the past?” is a more useful question than “What is a temporary receipt form?” (learning outcomes 4, 5, 6, 8) (10%)

(10%) Cataloging Day at the North Carolina Museum of History

Each student will participate in one daylong (9am–5pm) object-cataloging workshop at the North Carolina Museum of History in Raleigh. Scheduled dates are: **Saturday, October 20** and **Wednesday October 31**. **Let me know by the end of class on September 19 which day you'll be attending.** (learning outcomes 1, 2, 3, 4, 7, 8, 9)

2. Draft Forms and Documents 5%

Over the course of the semester, students will prepare several of the types of collections management documents that registrars and curators use every day, including temporary receipt forms, condition reports, storage proposals, loan agreements, and acquisitions proposals. I will review drafts so that you can make corrections and produce final documents for inclusion in your item history files (see below). (learning outcomes 1, 2, 3, 4, 7, 8, 9)

3. Collections Management Policy Evaluation 10%

Working in teams of two, students will critically evaluate a real museum collections management policy. On **September 5**, teams will present their analyses to the class (approximately 5 minutes per presentation). The following week on **September 12**, each team will turn in one collaboratively written paper (2–3 pages long, Chicago style) that identifies the strengths and weaknesses of the policy. Evaluations should reflect student knowledge of best practices and professional standards from readings and in-class discussions. (learning outcomes 1, 6, 7, 8)

4. Provenance/Context Report 30%

Each student will prepare a research report on the provenance and historical context of one object from their donor collection. The paper should include primary source genealogical and documentary research as well as material culture analysis and contextualization. Finally, using secondary scholarship, students should situate the collection within its historical framework and explain how it might be interpreted in an exhibition or program. The paper should be 5–6 pages long with Chicago-style citations. **Due October 17.** (learning outcomes 3, 4, 8, 7, 9)

5. Item History Files 25%

Students will prepare an item history file for each of their collections (donor collection and curator-led acquisition). Each file should include: a temporary receipt form, final catalog entries for each object in the collection, a storage proposal with diagram for each object in the collection, a condition report for each object in the collection, three photographs of each object and supplementary historical documentation. Include your revised provenance/context report in the donor collection file. **Provide two copies** of your donor file as you will be sharing your research on this collection with your donor. **Due November 28.** (learning outcomes 1, 2, 3, 4, 7, 8, 9)

Lateness policy

To be fair to all students and to keep anyone from falling behind, it is important that assignments be turned in on time. I will deduct 1/3 letter grade (i.e. A to A-) for each day that an assignment is late. If you have extenuating circumstances, please see me well ahead of time.

Attendance Policy

Absence from class will negatively impact your class participation grade and will deprive you of valuable discussion, instruction, and hands-on learning. Please let me know well in advance if you have a legitimate need to miss class so that we can discuss your options.

Grading Scale

A=93–100; A-=90–92; B+=87–89; B=83–86; B-=80–82; C+=77–79; C=73–76; F=72 and below

Academic Integrity Policy

All students have a responsibility to uphold the standards of “Honesty, Trust, Fairness, Respect, and Responsibility” detailed in the Academic Integrity Policy. Instances of cheating, plagiarism, misuse of academic resources, falsification of information, and facilitating of academic dishonesty are treated with utmost seriousness by the history department and dealt with severely by the university administration. The full policy appears in the Student Calendar/Handbook and at <http://sa.uncg.edu/dean/academic-integrity/pledg/>.

Special Needs

If you require accommodations for special learning needs, please do not hesitate to contact the Office of Accessibility Resources and Services, located within the Elliott University Center (336-334-5440; <http://ods.uncg.edu>). Please also feel free to notify me, as I am committed to making your learning experience successful.

NO CLASS NOVEMBER 21, 2018: THANKSGIVING BREAK

**WEEK FOURTEEN: Acquisitions Committee Meeting, Wrap-up
November 28, 2018**

Readings: NONE! Spend your extra time this week preparing for the acquisitions committee meeting and finishing up your item history files.

Assignments due: **You do NOT need to post a discussion question on Canvas this week**

1. Come prepared to present your collections to the acquisitions committee. **2.** Carefully review the acquisitions committee agenda and perform background research on your peers' collections so that you will be an informed committee member and voter. **3.** Turn in your completed item history files for each of your collections, making sure to provide two copies of the donor collection file.
