Course Description

This course surveys women’s and gender history in the Atlantic World up to 1750. This course explores how social and cultural expectations for gender roles informed concepts of power, reproductive and physical labor, family dynamics, religion, economics, and politics as exchanges of peoples, ideas, and goods circulated the Atlantic Ocean. Focusing on these themes and the lives of women living in Africa, Europe, and the Americas, this course will examine questions such as “How were women’s lives affected by European exploration and the growth of empires?,” “How did women display power within their families and communities?,” and “How did the lives of single women differ from the lives of married women?” Through answering these questions, learners will develop a more thorough understanding of how ideas about gender, sexuality, race, and class informed significant developments across the Atlantic World, including European exploration, intercultural interactions, the Atlantic slave trade, and women’s agency. Learners will analyze primary sources from diverse perspectives that introduce the controversies, trends, events, and actors in the premodern period. In addition to exploring women and gender as a historical concept, learners will also learn analytical skills employed in the study of history.

COVID-19 Policy

As we return for Fall 2022, all students, faculty, and staff and all visitors to campus are required to uphold UNCG’s culture of care by actively engaging in behaviors that limit the spread of COVID-19. While face-coverings are optional in most areas on campus, individuals are encouraged to wear masks. All individuals and visitors to campus are asked to follow the following actions:

- Engaging in proper hand-washing hygiene.
- Staying home when ill.
● Complying with directions from health care providers or public health officials to quarantine or isolate if ill or exposed to someone who is ill.

● Completing a self-report when experiencing COVID-19 symptoms, testing positive for COVID-19, or being identified as a close contact of someone who has tested positive.

● Staying informed about the University's policies and announcements via the COVID-19 website.

Students who are ill, quarantining, or isolating should not attend in-person class meetings, but should instead contact their instructor(s) so alternative arrangements for learning and the submission of assignments can be made where possible.

As we continue to manage COVID-19 on our campus, we are following the lead of the local health department and we will adjust our plans to balance student success, instructional requirements, and the hallmarks of the collegiate experience with the safety and wellbeing of our campus community.
