**Course Description:**  
This course will explore the connection between race and the history of Native America. Students will investigate the ways that the concept of race impacted indigenous Americans and shaped their destinies. We will focus on the ways that Native communities rejected and embraced racial hierarchies and how these decisions supported and disrupted long-held ideas about family, kinship, nation, and social belonging. The class will also focus on the legacies of these decisions and their impacts on present-day Native peoples and their neighbors.
